## **NEUQUÉN INGENIERÍA POLICY ON QUALITY ENGINEERING, ENVIRONMENT, SAFETY AND HEALTH.**

Neuquén Ingeniería, formed in 2001 in the Province of Neuquen, Argentina, is a company of projects and works, composed by a group of qualified professionals, dedicated to the development of engineering and industrial works in urban and hydrocarbon areas.

The company develops projects and civil works, electrical installations and mechanical constructions of high pressure piping for gas and oil pipes in HDPE and electrical and mechanical maintenance. Projects, assemblies of photovoltaic systems and machinery rentals.

For Neuquen Engineering work is a way of life that dignifies the human being. In pursuing that work is favorable for people who develop it as well for those who require it considers to be respected and complied with the guidelines of Quality, Environment, Safety and Health.

Applying the Integrated Management System consisting of ISO 9001, ISO 14001 and OHSAS 18001 standards, will allow members of the company:

- Store and look after their own mental and physical integrity of their peers, the people in the working environment and their family and friends who always expected.
- Be committed to continuous improvement and satisfaction with stakeholders.
- Keep in good condition the means and facilities on which they are working.
- Be committed to environmental protection and pollution prevention so that nature is respected.

In order to heighten the sense of work, Neuquén Ingeniería invites its members, friends and clients to incorporate the Integrated Management System and respect for the law and procedures, as guidelines for achieving a healthy and profitable target.

### **VIEW**

Be regional leaders, the first choice of our customers in engineering, construction, operation, maintenance and development of projects.

### **MISSION**

Neuquén Ingeniería is a company dedicated to the development, construction and maintenance of projects in oil and gas fields, providing, in each of his works, a high degree of differentiated value through innovation, quality, responsibility and commitment to customers, employees and the community.

### **VALUES**

Ethics - Human Relations - Security - Quality - Business Conduct.
